

AMENDMENTS TO THE CLAIMS

The following listing of claims will replace all prior versions and listings of claims in the application.

LISTING OF CLAIMS

1. (original) A method comprising:
providing a pattern on a piece of bulk fabric, said pattern including an interior portion and a pair of outboard bolsters;
cutting said pattern to a desired shape from said piece of bulk fabric;
sewing said pattern along pre-selected areas to delineate said interior portion from said outboard bolsters;
joining said pattern to side face panels to form a cover; and
covering a component with said cover.
2. (original) The method of claim 1 further comprising printing a design on a sub-portion of said pattern, said design visually distinguishing said sub-portion of said pattern from a remainder of said pattern.
3. (original) The method of claim 2 wherein said printing step further comprises laser jet printing.
4. (original) The method of claim 1 wherein said pattern further comprises a front face extending from said interior portion in a first direction and a kick panel extending from said interior portion in a second direction opposite said first direction.

5. (original) The method of claim 1 wherein said pattern further comprises a front including said interior portion and said bolsters and a back including a second interior portion and second bolsters, said front and back being connected by a top face.

6. (original) The method of claim 1 wherein said pattern further comprises a pattern of a door panel.

7. (original) The method of claim 1 wherein said sewing step further comprises sewing pinch seams in said pattern between said interior portion and said outboard bolsters.

8. (currently amended) A method comprising:
providing a piece of fabric with a pattern including an interior portion and a pair of outboard bolsters;

printing a sub-portion of said pattern with a design visually distinguishing said sub-portion from a remainder of said pattern;

sewing said fabric along select areas to delineate said interior portion from said bolsters and to convert said pattern into a cover; and
covering a component with said pattern.

9. (cancelled)

10. (currently amended) The method of ~~claim 8~~claim 9 wherein said printing step further comprises printing said sub-portion by laser jet printing.

11. (original) The method of claim 8 further comprising sewing side panels to said pattern.

12. (currently amended) A method comprising:
providing a piece of fabric with a pattern including an interior portion and a
pair of outboard bolsters;
sewing said fabric along select areas to delineate said interior portion from
said bolsters and to convert said pattern into a cover; and
covering a component with said pattern;

~~The method of claim 8~~ wherein said sewing step further comprises forming pinch seams between said interior portion and said pair of outboard bolsters.

13. (original) The method of claim 8 wherein said component further comprises a seat bottom.

14. (original) The method of claim 8 wherein said component further comprises a seat back.

15. (currently amended) A method comprising:

providing a piece of fabric with a pattern including an interior portion and a pair of outboard bolsters;

sewing said fabric along select areas to delineate said interior portion from said bolsters and to convert said pattern into a cover; and

covering a component with said pattern;

~~The method of claim 8 wherein said component further comprises a door~~
panel.
